Subject Index

Volume 10

Orthotics-Knee

Genu recurvatum: identification of three distinct mechanical profiles. Fish, Deanna J., MS, CPO; Kosta, Cheryl S., PT. 1998;10:2:26-32.

Orthotics-Lower Extremity: Foot & Ankle

Clinical outcomes of an orthopedic ankle-stabilizing boot. Polliack, Adrian A., PhD, MIPEM; Moser, Stefan, CPed, CPO. 1998;10:2:37-41.

Determination of stress distribution in various ankle-foot orthoses: experimental stress analysis. Chu, Tai-Ming, PhD; Feng, Rong, MS. 1998;10:1:11-16.

Orthotics-Spinal

A new cervical-thoracic orthosis: clinical report of seven cases. Catipovic, Robert M., BS, CPO; Tittle, Lillian A., BS; Mollendorf, Joseph C., PhD. 1998;10:2:33-36.

A preliminary report on a new design of a spinal orthosis for spondylolytic patients: review of the literature and initiation for future study of a new design. Smith, Keith M. 1998;10:2:45-49.

Preliminary results of part-time bracing for the management of idiopathic scoliosis. Roach, Christopher J., BS; Andrish, Jack T., MD. 1998;10:3:71-76.

Prosthetics-Knee

Beyond the four-bar knee. Breakey, James W., PhD, CP; Marquette, Stuart H., BS, CO. 1998;10:3:77-80.

Fitting a knee disarticulation as a BK utilizing the ALPS locking pin as a pseudo-tibial lever: a single case review. Jennings, Jason M.; Wontorcik, Leslie D., CP. 1998;10:1:7-10.

Frequency content of prosthetic and orthotic shapes: a requirement for CAD/CAM digitizer performance. Hastings, Jeffrey A.; Vannah, William M., PhD; Stand, Joseph A III; Harning, David M., CPO; Drvaric, David M., MD. 1998;10:1:2-6.

Prosthetics-Lower Extremity

A flexible, air-permeable socket prosthesis for bilateral hip disarticulation and hemicorporectomy amputees. Carlson, J. Martin, CPO; Wood, Susan L., RTPO. 1998;10:4:110-115.

Predisposing factors related to prosthetic use by people with a transtibial and transfemoral amputation. Gauthier-Gagnon, Christiane, MSc; Grise, Marie-Claude, MSc; Potvin, Diane, MSc. 1998;10:4:99-109.

Rehabilitation and prosthetic intervention/prosthetic pathways in managing the dysvascular patient. Schoonmaker, Lisa, CPO. 1998;10:4:82-84.

Theory of integrated balance: the lower limb amputee. Breakey, James W., PhD, CP. 1998;10:2:42-44.

Prosthetics-Lower Extremity: Transfemoral

Transfemoral amputees walking on a rotary hydraulic prosthetic knee mechanism: a preliminary report. Blumentritt, S., PhD; Scherer, Hans Werner, OMM; Michael, John W., MEd, CPO, FAAOP, FISPO; Schmalz, T., PhD. 1998;10:3:61-70.

A vacuum donning procedure for transfemoral suction suspension prostheses. Layton, Harry, CPO. 1998;10:1:21-25.

Prosthetics-Lower Extremity:Transtibial

Pressures at the residual limb-socket interface in transtibial amputees with thigh lacer-side joints. Shem, Kazuko L., MD; Breakey, James W., PhD, CP; Werner, Peter C., MD. 1998;10:3:51-55.

Stereolithography and prosthetic test socket manufacture: a cost/benefit analysis. Freeman, Donald; Wontorcik, Leslie, CP. 1998;10:1:17-20.

Prosthetics-Upper Extremity

Electric wrist rotation in proportional-controlled systems. Sears, Harold H., PhD; Shaperman, Julie, MSPH, OTR. 1998;10:4:92-98.

A survey of upper-limb prosthesis users in oxfordshire. Kyberd, Peter J., MSc, PhD, MISPO; Beard, David J., Dphil, MSc, MCSP; Davey, Jane J., DipCOT, SROT; Morrison, J. Dougall, FRCS. 1998;10:4:85-91.

Prosthetics-Upper Extremity: Transhumeral

Transition to a switch-activated, 3-S, transhumeral prosthesis: a team approach. Vacek, Kris M., OTD. 1998;10:3:56-60.
